ABOUT ME

Experienced technologist proficient in programming languages including C and Python, skilled in Object-Oriented Programming (OOP) and Test-Driven Development (TDD) methodologies. Well-versed in data structures and algorithms, with a knack for designing and implementing web pages using HTML and CSS. Proficient in SQL for database management. Passionate about crafting innovative solutions and continuously expanding technical horizons
And this is my GitHub
<https://github.com/salihabrik>

Dedicated senior administrative assistant with over 3 years of professional experience. Eager with managing appointments and communications. Also, skilled in accounting and ready to assist in bookkeeping.

Skills

- I possess a diverse set of skills enabling success across various environments. With a strong background in software development and proficiency in languages such as Java and Python, I excel in web development using HTML and CSS. My analytical thinking and problem-solving skills have been honed through my computer science studies, empowering me to effectively analyze challenges and devise solutions.
